TECHNICAL SKILLS

- Machine Learning
- Deep Learning
- AI Automation
- ANN / CNN
- Computer Vision
- Deepfake Tech
- Chatbot Development
- Prompt Engineering
- Data Science & EDA
- Feature Engineering
- Network Intrusion Detection
- NLP & LLM Integration

PROGRAMMING

- Python
- SQL
- MongoDB
- MySQL
- TypeScript
- JavaScript

LIBRARIES & TOOLS

- Pandas, NumPy, Scikit-learn
- TensorFlow, PyTorch
- OpenCV
- XGBoost, Random Forest
- LangChain, HuggingFace
- FastAPI, Flask, Streamlit
- Next.js, React, Node.js
- Supabase, PostgreSQL
- Jupyter, Google Colab
- VS Code, Git & GitHub
- Docker

LANGUAGES

- English
- Urdu

PROFESSIONAL SUMMARY

Artificial Intelligence undergraduate (6th semester) with hands-on experience from multiple AI/ML internships and real-world projects. Skilled in Machine Learning, Deep Learning, AI Automation, Computer Vision, NLP, and database management. Passionate about building intelligent, end-to-end AI solutions.

PROFESSIONAL EXPERIENCE

AI / Software Development Intern

Pakistan Ordnance Factories (POF), IT Dept | Jul 2026 – Aug 2026 | Wah Cantt

- Built 5 AI projects: network intrusion detection (97%+ accuracy), driver drowsiness monitor, medical document AI, 3D model generator, and FYP management portal.

Machine Learning Intern

Decode Labs | 2026 (2 Months)

- Developed and evaluated ML models; performed data preprocessing and implemented AI-based predictive solutions.

Machine Learning Intern

Skillyfy | 2025 (2 Months)

- Built ML models using Python and Scikit-learn; applied feature engineering and data preprocessing techniques.

AI & Machine Learning Intern (Remote)

CoderXa | 2026 (1 Month)

- Developed AI automation solutions using Python; worked on predictive analytics and remote ML projects.

PROJECTS

AETHER-NIDS — AI Network Intrusion Detection System

Live: aether-nids-v2-4-ml.vercel.app

- ML-based NIDS on NSL-KDD & CICIDS-2017 using XGBoost & ensemble models; 97%+ accuracy with SHAP explainability and live React threat dashboard.

Tech: Python · XGBoost · Random Forest · FastAPI · React

DrowsyGuard — Driver Drowsiness Detection

Live: drowsiness-detection-omega.vercel.app

- Real-time webcam system using MediaPipe FaceMesh (468 landmarks) with EAR/MAR algorithms to detect drowsiness and yawning; triggers audio-visual alerts.

Tech: Python · OpenCV · EAR Algorithm · WebRTC · JavaScript

Doc AI — Intelligent Medical Document Assistant

Live: doc-ai-ruddy.vercel.app

- LLM-integrated medical document processor; summarizes reports, explains prescriptions, flags abnormal lab values, supports English & Urdu bilingual output.

Tech: Python · LangChain · Tesseract OCR · FastAPI · React · HuggingFace

Map AI — AI-Powered 3D Model Designer

Live: model-designer-six.vercel.app

- Text/image-to-3D web app with Three.js WebGL in-browser viewer; supports OBJ & GLTF export for Blender, Unity, and Unreal Engine.

Tech: JavaScript · React · 3D Generation API · OBJ · GLTF

NexoraBridge — AI FYP Management Portal

- Full-stack FYP portal with NLP-based student-supervisor matching, milestone tracking, plagiarism detection, and an industry job board on a 31-table Supabase schema.

Tech: Next.js · Node.js · TypeScript · Supabase · PostgreSQL · Prisma · Gemini API

AI Timetable Automation

- AI-powered conflict-free timetable generator based on user-defined constraints.

Tech: Python, Machine Learning

Eye-Based Image Analysis System

- Computer vision application for intelligent eye image prediction and analysis.

Tech: *OpenCV, Python, Deep Learning*

E-Bike Battery Health Calculator

- Predictive model to estimate e-bike battery health and performance.

Tech: *Python, Machine Learning*

Daily Life Automation

- AI-powered automation solutions for repetitive daily tasks and productivity.

Tech: *Python, AI Automation*

EDUCATION

Bachelor of Science in Artificial Intelligence (BSAI)

COMSATS University Islamabad, Wah Campus | 2023 - 2027 | Currently 6th Semester

Studying Machine Learning, Deep Learning, Computer Vision, NLP, Data Science, Intelligent Systems, Database Management, and Software Engineering.

KEY ACHIEVEMENTS

- Completed 3+ AI/ML Internships including POF IT Department.
- Achieved 97%+ accuracy on network intrusion detection using ML ensemble models.
- Deployed 4 live AI web applications on Vercel with full-stack backends.
- Built 10+ AI/ML projects spanning Computer Vision, NLP, Cybersecurity, and Generative AI.
